Anniversary Dates

- The "anniversary date" is the basis for all retirement data reporting.

- Anniversary dates DO NOT CHANGE unless there is a break in contractual service.

- The anniversary date posted in MCTFS must be verified/corrected prior to reporting or correcting CRCR historical data.

Anniversary Date
DOES NOT CHANGE

How are Retirement Points Credited?

- <u>Retirement points</u> are credited through the performance of **IDT** periods, **AD** periods, **correspondence** courses, and **Funeral** details as defined in MCO P1001R.1.

- <u>Additional Points</u> are awarded by virtue of **membership** within the Marine Corps Reserve.

How Are Retirement Points Credited?

- MCTFS computes retirement points for current and prior years through UD reporting.

- Retirement points earned BEFORE current and prior years are known as HISTORICAL DATA.

Current, Prior, and Historical Years; an example

- The Marine's next anniversary date is: 20040316

- CURRENT anniversary year is then: 20030316-0000000

- The PRIOR anniversary year was: 20020316-2003031

- Retirement points accrued on or before 20020315 are considered HISTORICAL DATA

What is a Satisfactory Year?

A complete, continuous 365/366 day period...

During which a Marine earns at least 50 retirement points, using any combination of:

Inactive (IDT, FHD, EIN, EIO, ATP, RMP)

Correspondence points

Active (paid and unpaid)

Reserve retirement eligibility is determined by Membership points Satisfactory Years performed.

Who Inputs What?

CRCR Reporting:

- **RUC** completes worksheet and forwards to MARFORRES

- **COMMARFORRES** inputs historical data for SMCR Marines.

- **MCRSC** inputs historical data for IRR/IMA/MTU Marines.

- **MISSO-17** inputs all data for AR Marines and ALL Reservists

   on periods of ADSW/Active Duty (excluding AT).

- **CMC (MMSR-5)** verifies ANNIVERSARY date and CRCR

Marine's Responsibility

- Member is required to review their own CRCR for completeness and correctness.

- If corrections are required, the member will draw a black line through each incorrect item, write-in the correction, then initial each correction.

- The member may need to provide any external documentation to support a correction.

- Once corrections have been made and the member verifies CRCR is correct, the member will sign and date the CRCR. This is called "CRCR Certification".

Unit's Responsibility

✜The RUC will verify any suspected or identified corrections against documents on file (i.e., copies of DD Form 4, extensions, and DD Form 214).

✜Once verified, the RUC will forward requests to MARFORRES

✜If there are corrections that effect a historical anniversary year complete forward requests to MARFORRES using a CRCR worksheet.

✜Once all requested/required corrections are completed, a new CRCR will be provided to the member for "CRCR Certification".

✜RUC will report TTC 922 000 CRCR CERTDATE, using YYYYMM format.

Without a current CRCR Cert Date

- Reenlistments will not be approved.

- Composite Scores will not be calculated.

- Retirement points may not post to current and prior anniversary years.

- AFADBD will not be calculated correctly for periods of ADSW (including Mobilization).

Constructing CRCR Worksheets
to correct Historical Data

◆Gather current data contained in MCTFS screen RT07 and
MCTFS remarks D980.

◆Retrieve all of the Marine's contracts and extensions.

◆Gather all DD214's and page 3's to determine acdu tim

◆Get all drill data (IDART cards, LES's, muster sheets, etc

◆Find all correspondence data (MCI certificates, page 8a, etc.)

◆Contact MISSO for worksheet, copy of worksheet is provided on CD

Decoding the CRCR Worksheet

◆ ANNV FR/ANNV TO
  ◆ The actual anniversary year.

◆ BGNMBRDT/ENDMBRDT
  ◆ Dates DURING anniversary year when a Marine is a member of a certain component
  ◆ Automatically and properly credits membership points
  ◆ BGNMBRDT/ENDMBRDT dates will always be within or equal to ANNV FR/ANNV TO dates

◆ DOD SVC CODE
  ◆ 4-byte code constructed from tables in chapter 10 of MCTFSPRIM
  ◆ Indicates component of Marine during corresponding BGNMBRDT/ENDMBRDT

Decoding the CRCR Worksheet (part II)

- INACDU PD
  - Paid IDT's (regular IDT, EIO, ATP, RMP, etc) performed during corresponding BGNMBRDT/ENDMBRDT
- INACDU NP
  - Non-paid IDT's (EIN, Associate duty, etc) performed during corresponding BGNMBRDT/ENDMBRDT
- INACDU COR
  - Credit for correspondence courses (MCI, etc) completed during corresponding BGNMBRDT/ENDMBRDT
- INACDU FHD
  - Credit for Funeral Honors Duty performed during corresponding BGNMBRDT/ENDMBRDT

Decoding the CRCR Worksheet (part III)

- ACDU PD
  - Paid active duty (AT, ADSW, RCT, Mandays, etc) during corresponding BGNMBRDT/ENDMBRDT

- ACDU NP
  - Non-paid active duty (entitlement to pay waived by a Reservist due to pension status) during corresponding BGNMBRDT/ENDMBRDT

Send the completed CRCR Worksheet

◆Be sure to indicate:
  ◆A POC and phone number at your unit
  ◆What portion of the CRCR worksheet needs to be input

◆POC's for CRCR corrections are listed below:

❖ **MARFORRES G-1:** (Cpl Osborne, Bryson J. 504-678-8217) inputs data on SMCR provided by the RUC.

❖ **MCRSC**: (Central Records section, 816-843-3386) inputs data for IRR/IMA/MTU Marines.

❖ **MISSO 17:**   (Ms. Paula Ladisheff & Ms. Deborah Clark 816-926-5187/5187) inputs all data for AR Marines and all other reserve marines on
  ADSW / Active Duty (i.e.mobilized marines).

❖ **CMC (MMSR-5):** verifies ANNIVERSARY date and CRCR changes,

Practical Application

◆Let's see what you've learned.

◆Utilizing a blank CRCR worksheet, NAVMC 118 (3), DD Form 4, and a DD Form 214; construct current, prior, and historical data for a Marine.
